A.16-

INDEX TO VOL. XLI

Electrical Review

NEW YORK

JULY 5 TO DECEMBER 27, 1902

29180

INDEX TO VOLUME XLI

ELECTRICAL REVIEW

JULY 5 TO DECEMBER 27, 1902

Articles marked * are illustrated; (E.) indicates "Editorial;" (P.) indicates notes under "Recent Electrical Patents;" (R.) indicates "Reviews of Current Engineering Literature;" (I.) indicates "Industrial Section."

A

Accidents on trolley roads (E.)..... 399
Address wanted..... 96
Advertising literature, standardization of 145
Aeronautic competition at the world's fair 254
Air diffuser, an attachable (I.)*..... 124
Alternating currents..... 24
Alternating-current generators (I.)*... 537
Alternating-current model, an (R.)..... 858
Alternating-current motors (E.)..... 512
Alternating-current motors for railroads (E.)..... 464
Alternator design, some notes on, by John Denham*.....514, 551
Alexander Graham Bell honored (E.).. 72
Aluminum rectifiers..... 11
American Association for the Advancement of Science, the..... 787
American electrical machinery on British steam railway..... 316
American Electrochemical Society, the meeting of the (E.)..... 399
American Electrotherapeutic Association, the..... 58
American Institute of Electrical Engineers, meeting of.....431, 729, 873
American Institute of Electrical Engineers 363
American Institute of Electrical Engineers (E.)..... 369
American Rœntgen-Ray Society..... 807
American type Diesel engine, the*..... 762
Analogies (E.)..... 323
An automatic sight-feed graphite lubricator (I.)..... 613
Angle-bending tools (I.)..... 833
Annual convention of the Electric Storage Battery Company (I.)*..... 692
Anti-creeping device for electric meters (P.)* 714
Apparatus for lighting miners' safety or other enclosed lamps by electric current 612
Apparatus for maintaining uniform electrical resistance (P.)*..... 649
Apparatus for measuring mechanical equivalent of heat..... 143
Apparatus for testing bearing oils and bearing metals (R.)..... 353
Application of high temperatures by the electric arc and blow pipe..... 221
Applied electrometallurgy (E.)..... 201
Arc lamps, a new feature in electric (P.)* 60
Arctic magnetic observations (R.)..... 150
Armature reaction and fall of potential on dynamo-electric machines (R.).. 151
Armature core discs for continuous-current machines (R.)..... 353
Asynchronous generators for one or more phases (R.)..... 90
Asynchronous generator for polyphase current, an (R.)..... 653
Association of German Electrical Engineers, the..... 711
Atlantic Water and Electric Power Company, the..... 712
Attachment plug, an insulated (I.)*.... 752
Attenuation and distortion on long-distance telephone and power transmission lines regarded as hydrodynamic phenomena, by H. T. Eddy. 164
Atmospheric and radio-active substances, the (R.)..... 121
Atmospheric electricity and lightning protection (R.)..... 19
Atoms, the size of, by H. V. Ridout*.... 699
Automatic car type circuit-breakers (I.)* 226
Automatic controller device, a new (P.)* 249
Automatic injectors (I.)*..... 388
Automatic regulators (I.)*..... 360
Automatic switchless telephone, a new (I.)* 536
Automatic telephone apparatus, new factory for the manufacture of (I.). 662
Automatic telephone apparatus (I.)*... 390
Automatic Telephone Company, new.... 149
Automatic telephone exchange, the, by Joseph B. Baker..... 798
Automatic timing device, an (I.)*..... 833
Automobiles, electric and other forms of (E.) 33
Automobile, across the Alps in an*.... 345
Automobiles, electric (I.)..... 448
Avoid collisions (E.)..... 547

B

Balata gum in Brazil..... 286
Ball room decoration (I.)*..... 835
Baltimore, Washington & Annapolis single-phase road (E.)..... 399
Bare free conductors of soft copper, what sag shall be given? (R.)..... 120
Belt tightener (P.)*..... 278
Bench filing machine (I.)*..... 690
Bending tools (I.)*..... 614
Bequests of Cyrus O. Baker..... 214
Berlin Elevated and Underground Railway, the latest developments of the, by Frank C. Perkins*..... 466
Better transportation facilities (E.).... 465
Bench-board system (E.)..... 34
Bit brace, a practical corner (I.)*..... 28
Blasting apparatus (P.)*..... 715
Blockade on the elevated roads..... 808
Blondel oscillograph—new 1902 type, by C. L. Durand*..... 338
Blue-printing apparatus, electric..... 721
Book Reviews, 66, 114, 143, 286, 410, 504, 532, 629, 679, 713, 785, 855
Branch office managers' convention..... 494
Bremer arc light system (R.)..... 653
Briarcliff Manor..... 393
Bridge problem again, the (E.)..... 34
Briquettes in Germany, the manufacture and use of..... 256
Brute and circuit, the (E.)..... 793
By cable—around the world..... 685

C

Caple span, the longest*..... 217
Cable statistics..... 363
Calcium carbide manufacture in Italy, note on..... 381
Calculation of a 50,000-horse-power, 80,000-volt, 200-mile transmission line (R.)..... 312
Calorimeter, a simple form of fuel (R.). 90
Canada, the largest electrical transmission in, by Alton D. Adams*..... 266
Canadian convention, electric lights at the (I.)*..... 25
Canadian Power Company's development (R.)..... 687
Car heaters, electrical (I.)*..... 719
Car Heating and Light Company (I.).. 28
Care of dynamos and motors (A.)..... 886
Carpentier's torsion permeameter (R.). 90
Cauvery power transmission, the..... 707
Cement butts, durable (I.)*..... 862
Cement mill, electric apparatus in a modern* 602
Central energy telephones for mines and interurban railways (I.)*..... 782
Central station and heating system..... 600
Change in by-laws of the National Electric Light Association..... 94
Charging of telephone magnets..... 600
Charging switch, a new (P.)*..... 385
Charlestown power station of the Boston Elevated Railway*..... 12
Checking electrical instruments, by Clayton H. Sharp..... 401
Christmas (E.)..... 870
Circuit-breakers for car service (I.)*... 314
Civil service examinations (E.)..... 102
Clarke, Archibald..... 665
Coherer, a new type of..... 11
Coherers, the inherent nature of, by Edward P. Thompson..... 142
College degrees for correspondence school students (I.)..... 315
Colonel John Jacob Astor's gift to the public (E.)..... 667
Combination gasoline-electric trucks for heavy service (I.)*..... 282
Combination socket and hood for incandescent lamp (I.)*..... 539
Commutator (R.)..... 886
Commutator truing device, the B. & B. (I.) 889
Comparison of costs of steam and electric haulage for mines..... 60
Comparative advantages of two and three-wire distribution (R.)..... 355
Competition for the "Galileo Ferraris" award 5
Complimenting Mr. Pope (I.)..... 783
Condenser capacities..... 600
Conductivity of gases, a method of determining (R.)..... 686

Conduit for electric wire or cables (P.)* 119
Conduits, new method of making electric (P.)* 747
Consolidated California and Virginia Mining Company, the electrical equipment of the C. & C. shaft, by Leon M. Hall* 298
Consolidated Lake Superior Power Company, the hydraulic power plant of the (E.) 619
Consolidated Lake Superior Power Company, at Sault Ste. Marie, Mich., the opening of the hydraulic power plant of the, by George C. Schaad*. 626
Constant-potential and multiple enclosed arc lamps (I.)* 750
Construction of small telephone exchanges, by A. E. Dobbs,* 5, 79, 113, 137, 170, 206, 244, 276, 304, 336, 378, 442, 472, 524, 598, 642
Continuous-current dynamos, windings of (R.) 386
Continuous-current motors for machine tools, by F. O. Blackwell 812
Control of electric motors in factories, the (R.) 534
Copper-plating metals by the Dessolle process (R.) 496
Coronation honors to men of science 107
Correct type of engine for large generating stations (R.) 220
Correction, a 600
Costs of electric power transmission (R.) 652
Coupling for conducting wires (P.)* 146
Cowles, Alfred H. 679
Cranes, electric, by Waldon Fawcett* 350
Crank shaper, a new (I.)* 610
"Crewe" system of railway signaling (R.) 859
Cruvellier surface-contact system 309
Cure of cancer by the X-rays, the 243
Curves showing the available capacity of a lead accumulator, by Ernest Lunn 406
Curve-tracing instrument, a new, by Robert B. Owens* 81

CONVENTIONS.
American Association for the Advancement of Science 89
American Street Railway Association 246, 286, 452, 482
American Electrochemical Society (E.) 321
American Electrochemical Society, 347, 374, 407
Association of Edison Illuminating Companies 316, 363, 372
Electrical Contractors' Association, 66, 126
Independent Telephone Association of Southern Indiana 540, 630
International Association of Municipal Electricians 345, 410, 481
International Association of Steam Engineers 372
Interstate Independent Telephone Association 781, 800
Interstate Telephone Association 410
Kansas Independent Telephone Association 410
Kentucky Independent Telephone Association 630
Master Car Builders' Association 14
New York State Independent Telephone Association 147
Northwestern Electrical Association, joint meeting 20
Ohio Electric Light Association, 492, 565
Old Time Telegraphers and Historical Association 374
Pennsylvania Street Railway Association 373
Sales Managers 226
Street Railway Association of the State of New York 347, 373

D

Danger signals on the Erie Railroad, the electric* 87
Death of Mr. Child, the 11
Demand for turn-down lamps (I.)* 833
Depreciation in telephone property (E.) 232
Depreciation in telephone property, by Fred de Land 188, 210, 240, 271, 306
Design of alternating-current transformers (I.) 784
Designing of telephone apparatus, the* 334, 376, 415, 440, 523, 559, 601, 640, 685, 745, 847, 881
Desk set, a new (I.)* 452
Development of arc lighting apparatus from 1810 to 1902 (R.) 418
Development of the Institute (E.) 463
Device for lifting metal plates (P.)* 648
Differences in practice (E.) 758
Dinner to John Fritz 633
Direct-current machine motors (I.)* 688
Discharge nozzles for high heads (R.) 354
Distribution of energy for tramway, lighting and power purposes 631
Dissipation of energy by electric currents induced in an iron cylinder, when rotated in a magnetic field, by Ernest Wilson* 116, 133
Distribution of electrical energy in the department of the Aude (France). 571
Double-current generators and rotary converters 647
Double generating set, a novel (I.)* 253
Double-grip cable hanger, a new 787
Draughting machine and rapid sketching device (I.)* 860
Dusseldorf industrial exposition, electrical exhibits at the, by Frank C. Perkins* 236
Dynamo electric machines (P.)* 780
Dynamometer tests of trains on the New York Central-Hudson River Railroad, by Bion J. Arnold* 104

E

Earthing the middle wire in three-wire distributing system, and distribution with uninsulated neutral (R.) 386
Economy in the use of oil (R.) 419
Edison Illuminating Companies, Association of 173
Edison storage battery, the (I.) 834
Effect of low temperature on the recovery of overstrained iron and steel (R.) 191
Effect of X-rays on very small electric sparks (R.) 280
Efficiency of the electric furnace (E.). 429
Electric and magnetic properties of bodies at low temperatures (R.). 437
Electric and magnetic properties of bodies at low temperatures (E.). 463
Electric arc lamp (P.)* 384
Electric automobile (E.) 291, 430
Electric brakes (E.) 573
Electric clock (P.)* 494
Electric driving in navy yards (E.) 161
Electric express and package delivery, by George W. Parker 486
Electric furnace, the (E.) 262
Electric grinding device (P.)* 714
Electric heating (E.) 511
Electric installation of the Hydro-Electric Company of Fure and Morge (R.) 778
Electric lighting, a recent advance in* 673
Electric light in the home of the Pilgrims, by Alton D. Adams 214
Electric motors, coupling for (R.)* 384
Electric motor, device for control of (P.)* 533
Electric motor in rolling mills (R.) 590
Electric operation of trunk lines (E.). 793
Electric progress in the army and navy (E.) 33
Electric pumping at the South Durham collieries 597
Electric railway of the Compagnie d'Orleans (R.) 824
Electric railways (R.) 822
Electric railway signals (R.) 823
Electric storage batteries (I.) 254
Electric switch (P.)* 648
Electric trolley hoist, an (I.) 614
Electric variable speed control—170th meeting of American Institute of Electrical Engineers 729
Electrical apparatus in English coal mines* 554
Electrical brushes, a new process for making (P.)* 59
Electrical cauterizing instrument (P.)*. 118
Electrical conductivity of certain aluminum alloys as affected by exposure to London atmosphere (R.) 495
Electrical conductivity of air 78
Electrical conductors, process for the manufacture of (P.)* 444
Electrical control for newspaper printing-presses (I.) 449
Electrical convention (E.) 1
Electrical cooking range and broiler (I.) 834
Electrical development in California (E.) 759
Electrical engineering courses in the United States, concerning uniformity in the, by Samuel Sheldon. 9
Electrical exhibits at the convention of the International Association of Fire Engineers 423
Electrical fire hazards (E.) 794
Electrical industry and technical education, the (R.) 280
Electrical mining notes, by Sidney F. Walker 111, 375, 549
Electrical notes from Europe,* 46, 183, 218, 490, 644, 683
Electrical railway management 562
Electrical rat trap, an 235
Electrical and scientific meetings 96
Electrical service in military operation* 55
Electrical stations operated by gas engines, supplied with waste blast-furnace gases in Germany, by Frank A. Perkins* 560
Electrical testing of dynamos and motors (R.) 823
Electrical units, certain 682
Electrically controlled optical appliance (P.) 493
Electrically driven centrifugal pumps at the Horcajo mines, Spain (R.) 190, 280

Electrically driven tools (I.)*..... 222
Electrically operated coal hoist, having variable speed control, by P. O. Keilholtz 734
Electricity at the International Exposition at St. Louis in 1904 (E.)..201, 400
Electricity *vs.* compressed air, the use of (E.) 261
Electricity direct from coal (E.)..... 547
Electricity from refuse, the case for the modern destructor, by W. Francis Goodrich* 814
Electricity from tides (E.)..... 758
Electrification of the Northeastern Railway, London (R.)..... 353
Electrification of railways (E.)..... 323
Electrode separator (P.)*..... 445
Electromagnetic brakes (R.)..... 859
Electron, the..... 202
Electrolysis (E.)..... 1
Electrolysis 349
Electrolysis again..... 115
Electrolysis and its remedies..... 441
Electrolysis of gas and water mains (E.) 322
Electrolysis of gas mains, by James Swinburne* 263, 293
Electrolysis of pipe lines..... 213
Electrolysis and waterworks..... 558
Electrolytic manufacture of chlorates, the, by John B. C. Kershaw*...435, 475
Electrolytic production of alkali in Great Britain*..... 42
Electrochemical industries (E.)..... 401
Electrochemical industry in Russia..... 274
Electrochemical journal..... 148
Electrochemical phraseology (E.)..... 759
Electrochemical reaction..... 27
Electromagnetic clutch, a new (P.)*.... 59
Electromagnetic capping machine (P.)*. 118
Electrometallurgical problems (R.)..... 717
Electrometallurgical problems..... 777
Electrometallurgical problems (R.).535, 651
Electromotive waves accompanying mechanical disturbances in metals in contact with an electrolyte (R.).... 387
Electrostatic ground detectors (I.)*.... 539
Electrotherapeutic research (E.)..... 72
Electrotherapeutics (E.)..... 369
Electrothermic manufacture of steel (R.) 686
Elementary study of electricity, the (E.) 34
Enclosed direct-current series arc lamps (I.)* 356
Energy loss in commercial insulating materials, when subjected to high-potential stress, by C. E. Skinner*.. 82
Engineering (E.)..... 841
Engineering, by Professor John Perry.. 585
Engineering research and the National Bureau of Standards (E.).....71, 161
Engineering specialties, new works for the manufacture of (I.)..... 689
Engineer of the twentieth century, by Charles F. Scott..... 854
Engineers' outing..... 148
Engine-type motors and generators (I.)* 718
Equipment of the mechanical department of the Prudential Insurance Company of America, at Newark, N. J.*..... 809
European 30,000-volt, three-phase power transmission (R.)..... 887
Exciting dynamos (P.)*..... 714
Exhibitors at Detroit*..... 488
Expenses of electric light stations (E.). 75
Expenses of electric stations, by Alton D. Adams..... 77
Exportation of manufactures..... 799

F

Fan guard and air deflector, a combined* 453
Feed-water heaters and purifiers (I.)*.. 722
Fire hazard of kerosene..... 213
Fire hazards, electrical (E.)..... 163
Fire hazards of oil-cooled transformers (E.) 757
Fire-proofing of wood..... 503
Flush plug and receptacle, a new (I.)*. 540
Food plant at Niagara Falls, electrically operated, by Frank C. Perkins*..... 705
Franklin Institute meeting, the..... 558
French and German (E.)..... 871
John Fritz (E.)..... 621
Furnace for manufacturing iron, new electric (P.)*..... 215
Furnace, new electric (P.)*..... 146
Fuse, a new plug (I.)*..... 25
Future development in the use of electricity on board ship, probable, by F. O. Blackwell..... 772

G

Gas as fuel (E.)..... 465
Gas engine ignitor, a universal (I.)*... 752
Gases at high temperature, new phenomena in (E.)..... 697
Gases at high temperatures, by Dr. John Trowbridge 704
Gas power development (I.)..... 721
Gas turbine, the (E.)..... 531
Generator, a direct-connected (I.)..... 152
German high-speed experiments (E.)... 291
"Gilgen" patent fuse block, the*..... 830
Glass works, electric..... 235
Glower for pyro-electric lamps (P.)*.. 118
Governors, water-wheel (I.)*..... 193
Gravity battery, a new (P.)..... 118
Greater permanent progress in independent telephone industry, by Fred de Land..... 760
Grinder, a direct-connected motor-driven (I.)* 860
Grounding of distributing systems, the (E.) 261
Guard for third-rail system (P.)*..... 118
Gyrostatic action and its bearing on certain points of engineering design, by W. R. Kelsey*..... 233

H

Hagneck installation, the..... 345
Heated by electricity, a town (R.)..... 607
Heating and cooking system, wireless (I.)* 504
Heating of the Brooklyn trolley cars... 808
Heating of toothed core armatures (R.) 534
Heavy railway work, an electrical system for, by Wm. Hand Browne, Jr.* 701
Helena fire, the (R.)..... 858
High-speed electrical generating plant (R.) 886
High-speed electric cars, by Waldon Fawcett 383
High-speed electric traction tests in Germany (E.)..... 620
High-speed locomotive, a, by Enrico Bignami* 634
High temperature electrochemistry, by R. S. Hutton and J. E. Petavel*.844, 871
High-tension continuous-current system (R.) 121
High-tension work in the far west, by George H. Lukes.....371, 411
Hoisting gas engine, the (I.)..... 888
Hoisting machine, an electrically driven* 295
Honolulu Rapid Transit and Land Company* 438
Honors richly deserved..... 27
Hook-switch, a new*..... 829
"How and Why of Electricity, The".. 876
How much does the scrap heap cost? (E.) 465
Human electric battery, a..... 443
Hydro-electric power plant at Shawinigan Falls, the, by Frank C. Perkins* 108
Hydro-electric station at Hagneck, the, by Enrico Bignami*..... 328
Hysteresis tester, standard in Ewing's.. 297

I

Ignition engine, self-contained (I.)*... 125
Ignition dynamo, a self-contained (I.)*. 656
Illuminated signboards, new device for (P.)*..... 856
Incandescent electric lamp manufacture, new ideas in (I.)*..... 451
Incandescent electric lamp, new (P.)*.. 119
Incandescent lamp, a new type of (I.)*. 892
Incandescent lamp holder, a novel (P.)* 385
Incandescent lamp at the University of Illinois (I.)..... 362
Incandescent lamps, the manufacture of (I)*.....420, 690
Incomes of electric stations, by Alton D. Adams*..... 324
Increase of transmission voltage (E.).. 33
Index for this Volume, July to December, 1902..... 876
Indiana Electrical Association, meeting of 453
Indicating and registering wattmeter (R.) 778
Induction coil (R.)*..... 494
Induction motors (R.)..... 190
Induction motors at the Continental Iron Works (I.)..... 27
Induction motors in a wood-working establishment (I.)..... 785
Induction motors, armature winding for (P.)* 384
Institute meeting, the (E.)..... 727
Insulating conducting wires (P.)*..... 59
Insulating metallic surfaces (P.)..... 59
Insulation, a new high-tension (I.)*... 196
Insulation measurements of continuous-current installations made during operation (R.)..... 606
Insulator for high potentials (I.)*..... 422
Integrating photometer for glow lamps and sources of like intensity, an, by Charles P. Matthews*..... 593
Internal combustion engine, the (R.). 419
International congresses, the..... 892
Interstate Independent Telephone Association, the..... 740
Interstate Independent Telephone Convention, the..... 757
Improving the load curve of central stations (E.)..... 583

J

Jack for street-car service (I.)*..... 721
Japan, commercial education in (R.)... 151
Joint session of Independent Telephone Associations 614
Journal of the British Institution of Electrical Engineers..... 406

K

Kalgoorlie electric lighting and power system (R.) 447
Keystone exchange in Philadelphia, some unique features of (I.) 65
Keystone exchanges, two more (I.) 393
Kilowatt capacity and horse-power of a great city, the (E.) 463

L

Large capacity circuit-breaker (I.)* .. 224
Large electric installations, a (R.) 495
Large electrical transmission 213
Large electrical goods supply house, a (I.)* 449
Lead fuse for electrical circuits (P.)* .. 444
Leeds electricity works (R.) 749
Liberty light, the new 63
Lightning, are fishes killed by, by Dr. J. Trowbridge 777
Lighting cars with electricity 212
Lincoln power station of the Boston Elevated Railway* 238
Linemen's heavy snip (I.)* 284
Liquid fuel for steam purposes (R.) .. 61
Liquid fuel for steamships (R.) 251
Liverpool overhead railway, new equipment of (R.) 150
Loads on electric stations, by Alton D. Adams* 622
Local meeting of the American Institute of Electrical Engineers 808
Local Pittsburg meeting 614
Locating grounds 713
Locomotive, novel electric (P.)* 746
London county council conduit tramways* 343
Long-distance telephony, suggested methods for improving, by Charles E. Hall 879
Losses in a large asynchronous motor .. 437
Loss of life in the United States by lightning 235
Louisiana Purchase Exposition 265
Low-frequency alternating-current systems 808

M

Machine design, the tendency in (R.) .. 495
Machine shops by individual electric motors, the operation of, by R. T. E. Lozier* 763
Machine tool motors (I.)* 572
Machine tool progress, by Charles E. Hadley* 549, 555, 589, 632, 676
Mackay, John W. (E.) 162
Magnet coil for prolonged external heat (P.)* 885
Magnetic declination table and isogonic charts for 1902 827
Magnetic drilling jig (P.)* 533
Magnetic field of a moving electron, the, by J. A. Fleming 168
Magnetic pole, another 205
Magnetic resistance of a stretched bar (R.) 778
Magnetic rotation and wattmeters (I.)* 252
Magnetic traction wheel (P.)* 648
Magnetic wheels for carrying current (P.)* 494
Magnetostriction (R.) 651
Magnetostriction of bismuth (R.) 19
Maintenance of electric accumulators for traction (R.) 419
Manchester and Liverpool Electric Express Company, the (R.) 822
Manganese 216
Manhattan Transit Company 58
Manila to have an electric lighting system (E.) 697
Manufacture of electro steel in Sweden 112
Manufacturing plant, a new (I.) 502
Marconi inventions 149
Massena, the production of aluminum at (I.)* 361
Measured service, by George N. Bandy. 877
Measuring instruments, portable (I.)* 63
Mechanical boiler cleaner (I.)* 284
Mechernich system of magnetic concentration 745
Memorial service for John W. Mackay. 149
Memphis Telephone Company's exchange system* 764
Metallic calcium, production of (R.) ... 822
Metallic films by cathode projection (R.) 748
Meter, a new electric (P.)* 279
Method of determining the efficiency of motors (R.) 858
Mica 149
Midland electric power distribution 590
Midland electric power distribution (R.) 652
Mining engineering and metallurgy at the Massachusetts Institute of Technology 404
Mistreatment of measuring instruments (E.) 727
Model Engineers, the Society of London, England 209
Modern practice in the making of electric light fittings, by Norman Marshall* 658
Monorail system, the (E.) 794
Motor driven machine tools (I.)* 654
Motor driven tools (I.)* 122
Motors and generators, the rating of (R.) 312
Motor vehicle equipment, electric (I.)* 62
Multiple arc lighting system (I.)* 26
Multiple unit voltage speed control for trunk line service, by H. Ward Leonard* 735
Municipal ownership (E.) 401
Municipal telephony (E.) 869

N

Narrow *versus* ordinary gauge (R.) 220
National Association of Stationary Engineers 253
National Electric Light Association, 165, 256, 440, 657, 880
Nature of the coherer, the (R.) 418
Needed addition to electrical data (E.). 2
Needed electrometallurgical processes (E.) 548
Needed improvements in independent telephony, by L. W. Stanton 56
Nernst lamps for telephone switchboard (I.) 392
Nernst lamps in vacua (R.) 607
Nernst lamp, the (I.)* 92
New 25-ampere, 250-volt knife switch (I.)* 362
New brake method for determining the efficiency of motors (R.) 220
Newcastle and District Electric Lighting Company's power stations (R.) 281
New electric traction system for operation of interurban roads 382
New electric hoist, a (I.)* 389
New form of telephone receiver (P.)* .. 746
New line of electrical machinery, a (I.)* 500
New and old electrical theories (R.) 312
New smelting plant at El Paso, Texas (R.) 778
New five-ampere snap switch (I.)* ... 393
New generating plants of the Niagara Falls Power Company, by H. W. Buck* 6
News from Great Britain,* 48, 186, 216, 341, 380, 492, 646, 820
New South Wales government railways and tramways annual report 570
New theories (E.) 101
New telephone apparatus (I.) 613
New type invertible motors (I.) 575
New type, non-interfering, intercommunicating telephone (I.)* 784
New Year number of the ELECTRICAL REVIEW, the (E.) 795
